2018 Programs

Be Career Ready in 20 Weeks!

What is the Health Care Aide program?

The Health Care Aide Provincial Curriculum Certificate is a care-giver program developed by the Alberta Provincial Government. This program was developed to ensure all front-line health care workers have a standardized skill set to provide client care.

The full certificate program consists of in-depth theoretical and lab skills training. It also includes a practicum in which students will have the opportunity to work in a variety of care facilities throughout the city.

Student Testimonials

Upon completing the full time HCA program, I have gained confidence and skills that will help me in my future career as a health care aide.

I found the Excel instructors to be very helpful and understanding, especially because English is my second language.

When I did my HCA practicum, the facilities that I attended were very impressed with Excel Academy students. I was even given an unsolicited letter of reference by one of the facilities!

I am now ready and committed to pursuing my dream to be a successful Health Care Aide. Thank you to the Excel Academy for providing me with a very enriching experience.

Tuition & Fees

Tuition -- \$4125 (includes \$125 Registration fee), and includes 2 free pairs of scrubs.

(Textbooks & other fees apply, ask for details)

Student Financing Available!
